

School Accountability Report Card Reported for School Year 2009-10 Published During 2010-11

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

I. Data and Access

DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

The Mesquite School community of students, parents, teachers, and support personnel exist to create a collaborative environment that will provide our students with meaningful social and academic experiences. Our motto is, "One Team, One Goal, Making a Difference." The entire school community will be dedicated to the development of self-esteem, self-discipline, respect, responsibility and safety in all students so they are able to connect the knowledge they gain in a way that empowers them and influences their choices throughout their lives. This will be accomplished through clearly defined educational goals which will develop self-esteem, social responsibility and give the confidence to take risks in achieving high academic standards as set forth by district, state, and federal guidelines. Mesquite will work to establish an environment that maximizes student access and engagement through maintaining a respect for our rich diverse population and academic abilities. We at Mesquite School commit to a comprehensive system of support to assure these outcomes.

The vision of Mesquite Elementary School is to create a sense of respect, responsibility and involvement for students, teachers and parents. We hope to create life-long learners by providing instruction which includes a balance of language arts, math, and all other academia with the use of higher level thinking and problem solving skills while also integrating technology.

Mesquite's School Plan offers the on-going opportunity to plan, implement, monitor and evaluate a meaningful standards-based curriculum for all students.

The school's goals, objectives and activities have been identified and written based on needs expressed through teacher, student and parent surveys. Analysis of trimester benchmark tests, theme assessments, and CST results guide instruction. State API and federal AYP scores reflect progress toward, meeting grade level, district and state standards on a yearly basis. These goals, objectives and activities are established to improve instruction at Mesquite in order to provide students an opportunity to meet and exceed grade level, district, and state standards.

The Principal, Assistant Principal and LST, in collaboration with the Leadership Team, and School Site Council, developed the plan and will continue to work towards the ongoing implementation, evaluation and revision of this plan.

Mesquite Elementary strives to build quality school programs that are based on shared decision making by all staff members in meeting school, district and state guidelines.

Opportunities for Parental Involvement (School Year 2009-10)

This section provides information about opportunities for parents to become involved with school activities.

The parents of Mesquite School students are involved and interested in the operation of their school. These three very important parent groups assist in Mesquite's effort to provide effective educational programs and encourage the involvement, participation and support of parents. Additional Parent Forums such as Title I Meetings, Grade level information nights, Community Safety and Parent Workshops are offered throughout the school year in various capacities.

Types of Services Funded (Fiscal Year 2009-10)

This section provides information about the programs and supplemental services that are provided at the school through either categorical funds or other sources.

Each year Mesquite School allocates a portion of its budget to purchase additional instructional materials. In addition, community involvement through rebates and /or donations assists in this effort. This provides each child with an abundance of materials, including math manipulatives, literature enrichment, science kits, library resources, Accelerated Reading and Math programs, computer software, and other media resources which support and supplement the curriculum. While we have two dedicated computer labs with access to the Internet, each classroom has at least five computers with Internet access providing additional learning opportunities for students. Mesquite offers extra learning opportunities for all children. Before and after school enrichment and remediation programs are paid for through the school site budget.

IX. Student Performance

Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and ten through eleven. The CAPA includes ELA, mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment that is based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2009 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/pkt5intrpts09.pdf>.

Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.

X. Accountability

Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

Academic Performance Index Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

Statewide	3	3	3
Similar Schools	4	4	5

Academic Performance Index Growth by Student Group – Three-Year Comparison

Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Adequate Yearly Progress Overall and by Criteria (School Year 2009-10)

Federal Intervention Program (School Year 2010-11)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

XI. Instructional Planning and Scheduling

Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Teachers meet frequently within and across grade levels to plan and discuss what they are doing and how to coordinate instruction. A teacher survey is taken at the end of the school year that guides professional development and in-service selection decisions. Sites design specific professional development based on academic content standards, the California Standards for the Teaching Profession, and research-based practices.

Educational Services, Special Education, Biliteracy, Student Assessment and Accountability, Personnel, and Professional Development departments participate in the planning and implementation of District staff development activities. Courses are offered throughout the year on week nights and Saturdays.

Trainings are also offered during the summer months on content specific areas such as AB466 in mathematics and language arts, science curriculum workshops, mathematics workshops based on the California Mathematics Framework, Culture of Poverty, Guided Language Acquisition Development, and Gifted and Talented Education. Administration training focuses on team building and resource management.

Conference and convention attendance, in-service meetings and staff collaboration offers additional opportunities for professional growth. Teachers observe other professionals, engage in peer coaching and work with mentors and grade level or departmental colleagues.
