

# School Accountability Report Card Reported for School Year 2008-09 Published During 2009-10

The School Accountability Report Card (SARC), which is required by law to be published annually, contains information about the condition and performance of each California public school. More information about SARC requirements is available on the California Department of Education (CDE) SARC Web page at <http://www.cde.ca.gov/ta/ac/sa/>. For additional information about the school, parents and community members should contact the school principal or the district office.

## I. Data and Access

### DataQuest

DataQuest is an online data tool located on the CDE DataQuest Web page at <http://dq.cde.ca.gov/dataquest/> that contains additional information about this school and comparisons of the school to the district, the county, and the state. Specifically, DataQuest is a dynamic system that provides reports for accountability (e.g. Academic Performance Index [API], Adequate Yearly Progress [AYP], test data, enrollment, graduates, dropouts, course enrollments, staffing, and data regarding English learners).

### Internet Access

Internet access is available at public libraries and other locations that are publicly accessible (e.g., the California State Library). Access to the Internet at libraries and public locations is generally provided on a first-come, first-served basis. Other use restrictions include the hours of operation, the length of time that a workstation may be used (depending on availability), the types of software programs available on a workstation, and the ability to print documents.

### School Description and Mission Statement (School Year 2008-09)

This section provides information about the school, its programs and its goals.

Chaparral Elementary School is a Kindergarten through 6th grade school on a traditional school calendar, located in the city of Palmdale, California. Chaparral serves a diverse community and is located in a low socio-economic area. The student mobility rate is approximately 18% and the actual attendance rate is approximately 97%. The district utilizes a data collection program which interfaces with Aeries, our present data based student information program, to assist with reducing the lag time of information when a student transfers within the district. This will help to ensure a continuous educational program for transient students.

Chaparral Elementary houses eight state preschool classrooms on the campus. Access to a state preschool provides opportunity for articulation between preschool and kindergarten staff, resulting in a stronger more effective program to start our student's education.

We at Chaparral Elementary School are dedicated to recognizing the unique value of each person; providing active learning in a safe, supportive environment; developing an understanding of contemporary issues and technology; and promoting a partnership between home, school, and community. Our goal is to prepare our students to be contributing members of society.

Chaparral School has not met state API and AYP requirements for two consecutive years, and we are a year one Program Improvement school. We have made a strong commitment to providing a positive climate for learning in which all students can reach their fullest potential in academics. We hold students to the Chaparral Creed: "Excellence is the ONLY option". With a dedicated teaching staff, we have been able to align the curriculum with the state standards to address the needs of all segments of our community. We are striving to create an environment where students develop the ability to self motivate their goals through the understanding of the love of life-long learning.

### Opportunities for Parental Involvement (School Year 2008-09)

This section provides information about opportunities for parents to become involved with school activities.

Parental involvement is encouraged at our site. There are a number of ways to become involved including the English Language Advisory Committee, DELAC, parents helping in classrooms, and School Site Council.

Chaparral is also actively pursuing improving its PTA participation through an active and continual recruitment program.

Communication between home and school is a priority. Chaparral uses the connect-ed system, parent workshops, home visits, and classroom newsletters to keep parents updated on school activities.

## IX. Student Performance

### Standardized Testing and Reporting Program

The Standardized Testing and Reporting (STAR) Program consists of several key components, including the California Standards Tests (CSTs); the California Modified Assessment (CMA), and the California Alternate Performance Assessment (CAPA). The CSTs show how well students are doing in relation to the state content standards. The CSTs include English-language arts (ELA) and mathematics in grades two through eleven; science in grades five, eight, and nine through eleven; and history-social science in grades eight, and ten through eleven. The CAPA includes ELA, mathematics in grades two through eleven, and science for grades five, eight, and ten. The CAPA is given to those students with significant cognitive disabilities whose disabilities prevent them from taking either the CSTs with accommodations or modifications or the CMA with accommodations. The CMA includes ELA for grades three through eight and science in grades five and eight and is an alternate assessment that is based on modified achievement standards. The CMA is designed to assess those students whose disabilities preclude them from achieving grade-level proficiency on an assessment of the California content standards with or without accommodations. Student scores are reported as performance levels. Detailed information regarding the STAR Program results for each grade and performance level, including the percent of students not tested, can be found on the CDE Standardized Testing and Reporting (STAR) Results Web site at <http://star.cde.ca.gov>. Program information regarding the STAR Program can be found in the Explaining 2008 STAR Program Summary Results to the Public guide at <http://www.cde.ca.gov/ta/tg/sr/documents/starpkt5intrpts.pdf>. *Note: Scores are not shown when the number of students tested is ten or less, either because the number of students in this category is too small for statistical accuracy or to protect student privacy. In no case shall any group score be reported that would deliberately or inadvertently make public the score or performance of any individual student.*

## X. Accountability

### Academic Performance Index

The Academic Performance Index (API) is an annual measure of the academic performance and progress of schools in California. API scores range from 200 to 1,000, with a statewide target of 800. Detailed information about the API can be found at the CDE Academic Performance Index (API) Web page at <http://www.cde.ca.gov/ta/ac/ap/>.

### Academic Performance Index Ranks – Three-Year Comparison

This table displays the school's statewide and similar schools API ranks. The statewide API rank ranges from 1 to 10. A statewide rank of 1 means that the school has an API score in the lowest ten percent of all schools in the state, while a statewide rank of 10 means that the school has an API score in the highest ten percent of all schools in the state. The similar schools API rank reflects how a school compares to 100 statistically matched "similar schools." A similar schools rank of 1 means that the school's academic performance is comparable to the lowest performing ten schools of the 100 similar schools, while a similar schools rank of 10 means that the school's academic performance is better than at least 90 of the 100 similar schools.

API Rank	2006	2007	2008
Statewide	4	4	4
Similar Schools	8	9	7

### Academic Performance Index Growth by Student Group – Three-Year Comparison

This table displays, by student group, the actual API changes in points added or lost for the past three years, and the most recent API score. *Note: "N/A" means that the student group is not numerically significant.*

Group	Actual API Change			Growth API Score
	2006-07	2007-08	2008-09	2009
All Students at the School	6	-3	7	744
African American	11	-27	39	701

Students with Disabilities				

### Adequate Yearly Progress

The federal NCLB Act requires that all schools and districts meet the following Adequate Yearly Progress (AYP) criteria:

- Participation rate on the state's standards-based assessments in ELA and mathematics
- Percent proficient on the state's standards-based assessments in ELA and mathematics
- API as an additional indicator
- Graduation rate (for secondary schools)

Detailed information about AYP, including participation rates and percent proficient results by student group, can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

### Adequate Yearly Progress Overall and by Criteria (School Year 2008-09)

This table displays an indication of whether the school and the district made AYP overall and whether the school and the district met each of the AYP criteria.

AYP Criteria	School	District
Overall	No	No
Participation Rate: English-Language Arts	Yes	Yes
Participation Rate: Mathematics	Yes	Yes
Percent Proficient: English-Language Arts	No	No
Percent Proficient: Mathematics	No	No

## Federal Intervention Program (School Year 2009-10)

Schools and districts receiving federal Title I funding enter Program Improvement (PI) if they do not make AYP for two consecutive years in the same content area (ELA or mathematics) or on the same indicator (API or graduation rate). After entering PI, schools and districts advance to the next level of intervention with each additional year that they do not make AYP. Detailed information about PI identification can be found at the CDE Adequate Yearly Progress (AYP) Web page at <http://www.cde.ca.gov/ta/ac/ay/>.

Year in Program Improvement	Year 1	Year 3
Number of Schools Currently in Program Improvement	---	21
Percent of Schools Currently in Program Improvement	---	75.0

## XI. Instructional Planning and Scheduling

### Professional Development

This section provides information on the annual number of school days dedicated to staff development for the most recent three-year period.

Teachers meet frequently within and across grade levels to plan and discuss what they are doing and how to coordinate instruction. A teacher survey is taken at the end of the school year that guides professional development and in-service selection decisions. Sites design specific professional development based on academic content standards, the California Standards for the Teaching Profession, and research-based practices.

Educational Services, Special Education, Biliteracy, Student Assessment and Accountability, Personnel, and Professional Development departments participate in the planning and implementation of District staff development activities. Courses are offered throughout the year on week nights and Saturdays.

Trainings are also offered during the summer months on content specific areas such as AB466 in mathematics and language arts, science curriculum workshops, mathematics workshops based on the California Mathematics Framework, Culture of Poverty, Guided Language Acquisition Development, and Gifted and Talented Education. Administration training focuses on team building and resource management.

Conference and convention attendance, in-service meetings and staff collaboration offers additional opportunities for professional growth. Teachers observe other professionals, engage in peer coaching and work with mentors and grade level or departmental colleagues.

## XII. National Assessment of Educational Progress

### National Assessment of Educational Progress

The National Assessment of Educational Progress (NAEP) is a nationally representative assessment of what America's students know and can do in various subject areas. Assessments are conducted periodically in mathematics, reading, science, writing, the arts, civics, economics, geography, and U.S. history. Student scores for reading and mathematics are reported as performance levels (i.e., basic, proficient, and advanced) and the participation of students with disabilities and English language learners is reported based on three levels (identified, excluded, and assessed). Detailed information regarding the NAEP results for each grade, performance level, and participation rate can be found on the [National Assessment of Educational Progress](#) Web page (Outside Source).

Note: Only a sample group of California's schools and districts participate in the NAEP testing cycle. Therefore, students in any particular school or district may not be included in these results. The NAEP reflects state test results and is not reflective of either the LEA or the individual school. Comparisons of student performance on the NAEP and student performance on the Standardized Testing and Reporting (STAR) Program assessments cannot be made without an understanding of the key differences between the two assessment programs. For example, the NAEP only assesses grades four, eight and twelve and for long-term trends assesses grades nine, thirteen, and seventeen. Additionally, the NAEP only provides state test results for grades four and eight. The California Standards Tests (CSTs) are based on a different set of standards than the NAEP assessments. For example, the NAEP is not aligned with California academic content and achievement standards and, therefore, does not necessarily reflect the curriculum and instruction to which students are exposed in the classroom. The NAEP assesses reading and writing separately, while the CSTs assess English-language arts (ELA), encompassing reading as well as writing conventions, spelling, and grammar. Scores on the CSTs and other assessments are not directly comparable to those on NAEP. The averages and percentages presented are estimates based on samples of students rather than on entire populations. Finally, the questions students respond to are only a sample of the knowledge and skills covered by the NAEP frameworks. Information on the differences between NAEP and CST can be found on the CDE [National Assessment of Educational Progress \(NAEP\)](#) Web page.
