Universal Precautions

Students and staff shall observe universal precautions in order to prevent exposure to bloodborne pathogens and to prevent the spread of infectious diseases.

(cf. 4119.42/4219.42/4319.42 - Exposure Control Plan for Bloodborne Pathogens)
(cf. 4119.43/4219.43/4319.43 - Universal Precautions)

The Superintendent or designee shall inform students of the precautions to be used in cases of exposure to blood or other body fluids through injury, accident, or classroom instruction.

(cf. 5141 - Health Care and Emergencies)
(cf. 6145.2 - Athletic Competition)
Students with Infectious Diseases

The Superintendent or designee shall exclude students only in accordance with law, Board policy, and administrative regulation. Because bloodborne pathogens such as hepatitis B virus, hepatitis C virus, and human immunodeficiency virus (HIV) are not casually transmitted, the presence of infectious conditions of this type is not, by itself, sufficient reason to exclude students from attending school.

(cf. 5112.2 - Exclusions from Attendance)
(cf. 6164.6 - Identification and Education Under Section 504)

Parents/guardians are encouraged to inform the Superintendent or designee if their child has an infectious disease so that school staff may work cooperatively with the student's parents/guardians to minimize the child's exposure to other diseases in the school setting. The Superintendent or designee shall ensure that student confidentiality rights are strictly observed in accordance with law.

INFECTIONOUS DISEASES

The Superintendent or designee shall immediately report to the local health officer the presence or suspected presence of any communicable disease. (17 CCR 2508)

Universal Precautions in the Classroom

Before students work with blood, blood products, or other body fluids, the teacher shall explain the potentially hazardous nature of blood and body fluids in the transmission of various agents from one person to another and the specific procedures and safety precautions to be used in the lesson.

The following precautions shall be used when students are working with blood or other body fluids:

1. Before and after exposure to blood or other body fluids, students shall wash their hands with soap and water and cover any existing cut, wound, or open sore with a sterile dressing.

2. Students shall wear gloves or other personal protective equipment as appropriate.

(cf. 5142 - Safety)

3. Blood typing or similar experiments may be conducted by teacher demonstrations. When being performed individually, students shall work with their own blood or use prepackaged ABO/Rh blood cell kits that have vials of blood previously tested for transmissible agents.

   a. Students shall use individual sterile lancets for finger punctures and shall not reuse them.

   b. Before the finger is punctured, it shall be wiped with a piece of cotton that has been immersed in alcohol.

   c. If bleeding persists after the finger is punctured, the student shall apply a sterile bandage using moderate pressure.

4. Lancets and any other materials contaminated with blood or body fluids shall be discarded into a solution consisting of one part bleach to 10 parts water (1:10), made fresh daily.
5. At the end of the class, surfaces shall be wiped with alcohol or a solution of one part bleach to 10 parts water.

ASTHMA MANAGEMENT

The Board of Trustees desires to provide support systems for students with asthma in order to reduce school absences, help ensure that such students receive appropriate intervention if symptoms occur at school, and enable them to participate in the educational program and school activities to the extent possible.

The Superintendent or designee shall involve school nurses, other health professionals, school administrators, and health educators in the development of strategies to help provide a healthy and safe school environment for students with asthma. He/she may also involve school health councils or committees and other interested persons to ensure that the district's strategies are coordinated with other school health programs and practices.

(cf. 1220 - Citizen Advisory Committees)
(cf. 5030 - Student Wellness)

District strategies shall include, but not be limited to, procedures for identifying and addressing individual student needs, providing effective professional development on asthma symptoms and staff responsibilities, and identifying and reducing environmental factors at schools that may trigger and/or worsen asthma symptoms.

ASTHMA MANAGEMENT

Identification of Students with Asthma

The Superintendent or designee shall, upon a student's registration for school and annually thereafter, request parents/guardians to notify the principal or designee, in writing, if their child has been diagnosed with asthma, has recently experienced symptoms or has a history of asthma, and/or is at risk for potentially severe asthma attacks. The request also shall encourage parents/guardians to provide such notification at any time during the school year that their child is so diagnosed.

The Superintendent or designee shall keep a student's medical information in a secure location and maintain the confidentiality of student health records in accordance with law governing student records. A copy of a student's health record shall be provided to the school nurse, if any. In addition, pertinent information from the health record shall be released to other employees whose responsibilities require that they have access to such information in order to provide support services or to respond in an emergency, such as a student's teacher(s), coach(es), bus driver, and any other staff with responsibility for direct supervision of the student.

(cf. 5125 - Student Records)
(cf. 5148 - Child Care and Development)
(cf. 5148.2 - Before/After School Programs)
(cf. 5148.3 - Preschool/Early Childhood Education)

Individualized Asthma Management

When a student has been diagnosed with asthma or when such a student registers for school, the Superintendent or designee shall request that the parent/guardian submit an asthma action plan. This plan shall be developed by the student's health care provider, in partnership with the student and his/her parents/guardians, and shall include, but not be limited to, information regarding the student's symptoms and severity, asthma triggers, necessary medications, and the parent/guardian's authorization for the health care provider's disclosure of health information to the district. The Superintendent or designee shall request that the parents/guardians submit an updated plan each school year or whenever there are changes in the student's health condition or treatment.

When a student with asthma has been identified as disabled pursuant to Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act, necessary accommodations and services shall be identified as part of the student's Section 504 services plan or individualized education program (IEP), as appropriate.

(cf. 5141.24 - Specialized Health Care Services)
(cf. 6159 - Individualized Education Program)
(cf. 6164.6 - Identification and Education Under Section 504)
ASTHMA MANAGEMENT (continued)

Any student who needs to take prescribed medication during the school day may be assisted by a school nurse or designated school personnel or allowed to carry and self-administer inhaled asthma medication provided that the district receives written statements from the student's physician and parent/guardian in accordance with Education Code 49423.1 and BP/AR 5141.21 - Administering Medication and Monitoring Health Conditions. Parents/guardians shall be requested to provide quick relief medication to be administered in accordance with the student's asthma action plan.

(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

Students shall be encouraged to notify their teacher, physical education teacher, coach, or other staff when they are experiencing difficulty breathing and/or need to alter their physical activity level. A student experiencing symptoms shall be encouraged to use his/her quick relief medication. The student shall be supervised on school grounds by a responsible adult until he/she is no longer experiencing symptoms and/or his/her parent/guardian has been contacted.

(cf. 6142.7 - Physical Education and Activity)  
(cf. 6145 - Extracurricular and Co-curricular Activities)  
(cf. 6145.2 - Athletic Competition)

In case of emergency, staff shall call 911 and assist the student in the administration of quick relief medication as authorized in the student's asthma action plan, Section 504 services plan, or IEP. Staff shall contact the student's parent/guardian or other person identified as an emergency contact and shall supervise the student until his/her care has been assumed by a health professional, parent/guardian, or designated emergency contact.

(cf. 5141 - Health Care and Emergencies)  
(cf. 5142 - Safety)

Education and Support Services

Asthma management and support systems shall be coordinated by a school nurse, other qualified health professional, or educator who has received appropriate training.

Staff shall be provided professional development which includes information about symptoms and common triggers of asthma, ways to reduce acute symptoms, and emergency response procedures. This professional development may be provided by an outside consultant or organization, a school nurse, other qualified health professional, or educator who has received appropriate training.

(cf. 4131 - Staff Development)  
(cf. 4231 - Staff Development)  
(cf. 4331 - Staff Development)
ASTHMA MANAGEMENT  (continued)

The Superintendent or designee shall provide each school site with information regarding emergency management of asthma to post in easily accessible locations.

A school nurse or other qualified personnel may provide education to students with asthma using approved curriculum. (cf. 5141.3 - Health Examinations)
(cf. 5141.6 - School Health Services)

Environmental Assessment

The Superintendent or designee may periodically conduct an environmental assessment to identify and reduce the presence of common asthma triggers, including, but not limited to, pesticides, chemical pollutants, mold, and animal and dust mite allergens, in the school environment.

(cf. 3513.3 - Tobacco-Free Schools)
(cf. 3514 - Environmental Safety)
(cf. 3514.2 - Integrated Pest Management)

TUBERCULOSIS TESTING

Any student who is reasonably suspected of having active tuberculosis shall be excluded from attendance at a district school until the student provides evidence of a certificate showing that the student is free of communicable tuberculosis. (Health and Safety Code 121485, 121495, 121505)

(cf. 5112.2 - Exclusions from Attendance)

Students shall be screened or tested for tuberculosis under the following circumstances:

1. When required by the local health department as part of the comprehensive health screening required for school entry, parents/guardians shall, within 90 days after their child's entry into first grade, provide certification evidencing that their child has been screened for risk of tuberculosis within the preceding 18 months. Such certification shall be on a form approved by the California Department of Health Care Services. (Health and Safety Code 124040, 124085, 124105)

   In lieu of the certificate, parents/guardians may submit a signed waiver indicating that they do not want or are unable to obtain the health screening and evaluation services for their child and, if applicable, the reasons that they are unable to obtain the services. (Health and Safety Code 124085)

   (cf. 5141.32 - Health Screening for School Entry)

2. Whenever ordered by the local health officer for the preservation and protection of public health, students seeking admission for the first time to a district school at any grade level shall submit to tuberculosis testing. Students who are subject to the health officer's order shall be admitted to school as follows:

   a. The Superintendent or designee shall unconditionally admit any student who, prior to admission, submits a certificate signed by any public or private medical provider indicating that the student has completed an approved tuberculosis examination and is free from active tuberculosis. (Health and Safety Code 121485, 121490, 121500; 22 CCR 41305, 41311, 41313)

   (cf. 5141.3 - Health Examinations)
   (cf. 5141.6 - School Health Services)
   (cf. 5148 - Child Care and Development)
   (cf. 5148.3 - Preschool/Early Childhood Education)

   The Superintendent or designee shall exempt a student from the requirement to submit a certificate if the student's parent/guardian, or the student if an emancipated minor, provides an affidavit stating that the required examination is contrary to one's personal beliefs. If there is probable cause to believe that such a student has active tuberculosis, the student may be excluded from school until the Superintendent or designee is satisfied that the student is not afflicted. (Health and Safety Code 121505)
**TUBERCULOSIS TESTING** (continued)

b. A student who has not submitted the certificate or personal beliefs affidavit may be admitted on condition that the student receives an approved tuberculin skin test within 10 school days after admission. A student who has had a positive skin test and has not subsequently obtained a chest x-ray may be admitted on condition that the student receives a chest x-ray within 20 school days after admission. Any student who fails to provide the certificate within those time periods shall be prohibited from further attendance until the certificate is provided. (Health and Safety Code 121495; 22 CCR 41315, 41327)

c. Whenever the local health officer so orders, a student may be required to complete an additional examination and provide another certificate indicating that the student is free of communicable tuberculosis. (Health and Safety Code 121485)

d. At the discretion of the local health officer, the district may admit a student without a certificate if the student is undergoing or has already undergone preventive treatment for tuberculosis infection or treatment for tuberculosis disease. (22 CCR 41319)

3. Whenever the Superintendent or designee suspects that a student who has not been examined for tuberculosis either has the disease or has been exposed, the Superintendent or designee shall immediately report by telephone to the local health officer. When required by the local health officer, the district shall exclude the student from school until the student is certified to be free of communicable tuberculosis. (22 CCR 41329)

The Superintendent or designee shall maintain a record of any student's tuberculosis examination as part of the student's mandatory permanent student record. (22 CCR 41323)

(cf. 5125 - Student Records)

The Superintendent or designee shall annually file a report with the local health department on the results of tuberculosis examinations for all new district students required to complete such examinations in accordance with item #2 above, including, but not necessarily limited to, the number of students unconditionally and conditionally admitted and the number of students exempted on the basis of their personal beliefs. (22 CCR 41325)

All district staff shall receive information on how tuberculosis is spread and how it can be prevented and treated.

FOOD ALLERGIES/SPECIAL DIETARY NEEDS

The Board of Trustees desires to prevent students' exposure to foods to which they are allergic or intolerant and to provide for prompt and appropriate treatment in the event that a severe allergic reaction occurs at school.

The Superintendent or designee shall develop guidelines for the care of food-allergic students. Such guidelines shall include, but are not limited to, strategies for identifying students at risk for allergic reactions, avoidance measures, education of staff regarding typical symptoms, and actions to be taken in the event of a severe allergic reaction.

Parents/guardians shall be responsible for notifying the Superintendent or designee, in writing, regarding any food allergies or other special dietary needs of their child in accordance with administrative regulation.

When a student's food allergy or food intolerance substantially limits one or more major life activities, his/her parents/guardians shall be informed of the district's obligation to evaluate the student to determine if he/she requires accommodations pursuant to Section 504 of the federal Rehabilitation Act. The student shall be evaluated in accordance with law and the procedures specified in AR 6164.6 - Identification and Education Under Section 504. If that process results in the development of a Section 504 plan, the district shall provide the accommodations and/or aids and services identified in the plan.

If a student's diet restrictions and needed services are addressed in an individualized education program (IEP), the Superintendent or designee shall ensure compliance with the IEP including any necessary food substitutions.

Students shall not be excluded from school activities nor otherwise discriminated against, harassed, intimidated, or bullied because of their food allergy.
FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

Any complaint of alleged noncompliance with this policy shall be addressed through appropriate district complaint procedures.

(cf. 1312.3 - Uniform Complaint Procedures)
(cf. 3555 - Nutrition Program Compliance)

The district's food services program may, but is not required to, accommodate individual student preferences or diets that are not supported by a statement from the student's health care provider.

Palmdale, California
FOOD ALLERGIES/SPECIAL DIETARY NEEDS

Definitions

*Special dietary needs* include food intolerances, allergies, and other medical needs that may require avoidance of specific foods.

*Food allergies* are abnormal responses of the body's immune system to certain foods or ingredients.

*Anaphylaxis* is a potentially life-threatening hypersensitivity to a substance and may be caused by a food allergy. Symptoms may include shortness of breath, wheezing, difficulty breathing, difficulty talking or swallowing, hives, itching, swelling, shock, or asthma. (Education Code 49414)

*Epinephrine auto-injector* is a disposable drug delivery system with a spring-activated needle that is designed for emergency administration of epinephrine to provide rapid, convenient first aid for persons suffering a potentially fatal reaction to anaphylaxis. (Education Code 49414)

Notification by Parent/Guardian

The parents/guardians of any student who has a known food allergy or other special dietary need shall notify the Superintendent or designee, in writing, and provide written medical documentation, signed by the student's health care provider, that describes the nature of the student's condition, instructions, and necessary medications. If the student's condition requires food substitutions or modifications in school meals, the written statement shall also describe the specific foods to be restricted and the foods that should be substituted.

Health Plan

Upon receiving notice of a student's food allergy or other special dietary need, the Superintendent or designee shall ensure that a written health plan is developed, in consultation with the student's parents/guardians and health provider, to manage the student's needs while at school or at a school-sponsored activity. The plan shall seek to minimize the student's risk of exposure to the allergen and address actions to be taken if exposure occurs. As appropriate, the plan may include specific food prohibitions and substitutions, an identification of common school rooms where the student may be exposed, staff responsibilities, information and training to be provided to staff, accommodations and services to facilitate the student's participation in the educational program, and medical/emergency protocols.

When a student with a food allergy or other special dietary need has been identified as disabled pursuant to Section 504 of the Rehabilitation Act of 1973 or the Individuals with Disabilities Education Act, necessary accommodations and services shall be identified as part of the student's Section 504 services plan or individualized education program, as appropriate.
FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

(cf. 5141.24 - Specialized Health Care Services)
(cf. 6159 - Individualized Education Program)
(cf. 6164.6 - Identification and Education Under Section 504)

Prevention Strategies

To minimize students' exposure to foods to which they are allergic, the Superintendent or designee shall, at a minimum, implement the following preventive measures:

1. Notification to District Staff

When notified by the parent/guardian that a student has a food allergy, the Superintendent or designee shall inform the student's principal, teacher(s), bus driver, school nurse, coach, and/or any other personnel responsible for supervising the student.

The principal or designee shall notify substitute staff of the identity of any students with known food allergies and the school's response plan.

(cf. 5125 - Student Records)

2. Food Services

The district's food services program shall make food substitutions in breakfasts, lunches, and after-school snacks when students are considered to have a disability under Section 504 that restricts their diet and when a health care provider has signed a statement of need that includes recommended alternate foods. (7 CFR 210.10, 220.8)

(cf. 3550 - Food Service/Child Nutrition Program)
(cf. 3552 - Summer Meal Program)
(cf. 3554 - Other Food Sales)
(cf. 5030 - Student Wellness)
(cf. 5148.2 - Before/After School Programs)

Substitutions may be made on a case-by-case basis for students who do not have a disability under Section 504 but who cannot consume the regular breakfast, lunch, or after-school snack because of medical or other special dietary needs, when supported by a statement of need signed by a health care provider. (7 CFR 210.10, 220.8, 225.16)

The district's food services staff shall check food labels or specifications to ensure that foods do not contain traces of substances to which the student is allergic.

Under no circumstances shall food services staff prescribe nutritional requirements or revise a diet order prescribed by a health care provider.
FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

Food substitutions shall not result in any additional cost to the student.

3. Class Parties/School Activities

Without identifying the student, the principal or teacher may notify parents/guardians of other students in the class that a student is allergic to a specific food and may request that certain foods not be provided at class parties or other school events.

Whenever the ingredients in any food served at class parties or other school activities are unknown, the student shall be encouraged to avoid the food.

4. Sanitation and Cleaning

To avoid spreading allergens, cafeteria tables and classroom surfaces shall be cleaned with fresh cloth or disposable paper towels utilizing cleaning products known to effectively remove food proteins, excluding waterless cleaners or instant hand sanitizers that do not involve a wet-wash step. Cross-contact from a sponge or cloth used to clean allergen-containing tabletops shall be avoided.

Staff shall use and promote hand-washing using soap and water before and after food handling.

Students shall be notified that exchanging meals or utensils is prohibited.

5. Professional Development

Schoolwide professional development shall be provided to appropriate staff on the identification and management of food allergies, including avoidance measures, typical symptoms, the proper use of epinephrine auto-injectors, documentation and storage of medication, and emergency drills.

(cf. 4131 - Staff Development)
(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)

6. Supervision of Students

When available, staff who are trained and knowledgeable about symptoms of anaphylaxis and actions to take in an emergency shall provide supervision in the classroom and cafeteria, on the playground, and on field trips or other school activities whenever students known to have a food allergy are present.

(cf. 6153 - School-Sponsored Trips)
FOOD ALLERGIES/SPECIAL DIETARY NEEDS (continued)

7. Health Education

The district's health education curriculum may include instruction on food allergies in order to assist food-allergic students in taking responsibility for monitoring their diet and to teach other students about the dangers of sharing foods or utensils with others.

(cf. 6142.8 - Comprehensive Health Education)

Emergency Response

Epinephrine auto-injectors or other medicine provided for use in the event of an anaphylactic shock reaction shall be stored and used in accordance with law and BP/AR 5141.21 - Administering Medication and Monitoring Health Conditions.

(cf. 4119.43 - Universal Precautions)
(cf. 5141.21 - Administering Medication and Monitoring Health Conditions)

In addition, staff shall call 911 and seek immediate medical attention for a student experiencing an anaphylactic shock reaction.

(cf. 5141 - Health Care and Emergencies)

As soon as possible, school staff shall contact the student's parents/guardians or other person identified as an emergency contact.

When a student with a known allergy will be off school grounds, such as on a field trip, he/she shall be accompanied by a kit containing at least two doses of epinephrine, other medications as noted by the student's health care provider, and, as appropriate, the student's individualized food allergy plan.
HEALTH EXAMINATIONS

The Board of Trustees recognizes that periodic health examinations of students may lead to early detection and treatment of conditions that impact learning. Health examinations also may help in determining whether special adaptations of the school program are necessary.

The Superintendent or designee shall verify that students have complied with legal requirements for a comprehensive health screening, an oral health assessment, and immunizations at school entry. In addition, the district shall administer tests for vision, hearing, and scoliosis as required by law.

(cf. 5141.26 - Tuberculosis Testing)
(cf. 5141.31 - Immunizations)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5141.6 - School Health Services)

All students who participate as cheerleaders, song leaders, or athletes in organized competitive sports shall first undergo a medical examination and submit documentation of medical clearance to the district. Upon sustaining an injury or serious illness, a student may be required to have another examination before participating further. This requirement does not apply to participants in occasional play day or field day activities.

(cf. 5143 - Insurance)
(cf. 6145.2 - Athletic Competition)

The Superintendent or designee shall ensure that staff employed to examine students exercise proper care of each student and that examination results are kept confidential. Records related to these examinations shall be maintained and released only in accordance with law.

Policy adopted:  PALMDALE SCHOOL DISTRICT  Palmdale, California
Cautionary Notice: Government Code 17581.5 relieves districts from the obligation to perform specified mandated activities when the Budget Act does not provide reimbursement during that fiscal year. The Budget Act of 2018 (SB 840, Ch. 29, Statutes of 2018) extends the suspension of these requirements through the 2018-19 fiscal year. As a result, certain provisions of the following administrative regulation related to the removal of chemicals may be suspended.

The principal at each school shall notify parents/guardians of the rights of students and parents/guardians related to health examinations. (Education Code 48980; 20 USC 1232h)

(cf. 5022 - Student and Family Privacy Rights)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5141.6 - School Health Services)
(cf. 5145.6 - Parental Notifications)

A parent/guardian may annually file with the principal a written statement withholding consent to the physical examination of his/her child. Any such student shall be exempt from any physical examination but shall be subject to exclusion from attendance when contagious or infectious disease is reasonably suspected. (Education Code 49451; 20 USC 1232h)

(cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.22 - Infectious Diseases)
(cf. 5141.26 - Tuberculosis Testing)

Vision Tests

Each student's vision shall be appraised, by the school nurse or other personnel authorized under Education Code 49452, during the kindergarten year or upon first enrollment or entry in a district elementary school and subsequently in grades 2, 5, and 8. However, a student who is tested upon first enrollment or entry in the district in grade 4 or 7 shall not be required to be appraised in the next immediate year. (Education Code 49455)

The vision appraisal shall include tests for visual acuity, including near vision. Male students shall also be tested once for color vision in grade 1 or later and the results of the appraisal shall be entered in the student's health record. (Education Code 49455)

(cf. 5125 - Student Records)

Appraisal of a student's vision may be waived under either of the following conditions: (Education Code 49455)

1. The student's parent/guardian requests a waiver and presents a certificate from a physician/surgeon, physician assistant, or optometrist showing the results of an examination of the student's vision, including visual acuity and, in male students, color vision.
HEALTH EXAMINATIONS  (continued)

2. The student's parents/guardians file with the principal a written statement that they adhere to the faith or teachings of any well-recognized religious sect, denomination, or organization and, in accordance with its creed, tenets, or principles depend for healing upon prayer in the practice of their religion.

Visual defects or any other defects found as a result of the vision examination shall be reported to the parent/guardian with a request that remedial action be taken to correct or cure the defect. The report of a visual defect, if made in writing, shall be made on a form prescribed by the Superintendent of Public Instruction. The report shall not include a referral to any private practitioner. However, the student may be referred to a public clinic or diagnostic and treatment center operated by a public hospital or by the state, county, or city department of public health. (Education Code 49456)

In addition to the vision appraisals described above, the school nurse and/or classroom teacher shall continually and regularly observe students’ eyes, appearance, behavior, visual performance, and perception that may indicate vision difficulties. (Education Code 49455)

Hearing Tests

The Superintendent or designee shall provide for the administration of hearing tests to district students by personnel authorized to conduct such testing pursuant to Education Code 49452 and 49454 and in accordance with the procedures specified in 17 CCR 2951.

Each student shall be given a hearing screening test at the following times:  (17 CCR 2951)

1. Kindergarten or grade 1
2. Grade 2
3. Grade 5
4. Grade 8
5. Grade 10 or 11
6. Upon first entry into the California public school system

Each student enrolled in a special education program, other than those enrolled because of a hearing problem, shall be given a hearing test when enrolled in the program and every third year thereafter. Hearing tests may be given more frequently as needed, based on the individualized education program team's evaluation of the student. (17 CCR 2951)

(cf. 6159 - Individualized Education Program)
HEALTH EXAMINATIONS  (continued)

A follow-up hearing threshold test shall be administered to any student who fails to respond to any of the required frequencies in the screening test or is otherwise determined to need further evaluation. (17 CCR 2951)

The Superintendent or designee shall provide written notification of test results to the parents/guardians of any student who fails the hearing tests. When the test results fall within the levels specified in 17 CCR 2951 or there is evidence of pathology, such as an infection of the outer ear, chronic drainage, or a chronic earache, the notification shall include a recommendation that a further medical and audiological evaluation be obtained. (17 CCR 2951)

The dates and results of all screening tests and copies of threshold tests shall be included in the student's health records. (17 CCR 2951)

The principal or designee shall prepare an annual report of the school hearing testing program, using forms provided by the Department of Health Services, with copies to the Superintendent and the County Superintendent of Schools. (17 CCR 2951)

Scoliosis Screening

Each female student in grade 7 and each male student in grade 8 shall be screened for scoliosis. (Education Code 49452.5)

The parent/guardian of any student suspected of having scoliosis shall receive a notice which includes an explanation of scoliosis and describes the significance of treatment at an early age. This notice shall also describe the public services available for treatment and include a referral to appropriate community resources. (Education Code 49452.5)

Type 2 Diabetes Information

Because type 2 diabetes in children is a preventable and treatable disease, parents/guardians are encouraged to have their child screened by an authorized health care practitioner for risk factors of the disease, including excess weight, and to request tests of their child's blood glucose to determine if he/she has type 2 diabetes or pre-diabetes.

(cf. 5030 - Student Wellness)

The Superintendent or designee shall provide parents/guardians of incoming students in grade 7 with an information sheet developed by the CDE regarding type 2 diabetes, which includes:

(Education Code 49452.7)

1. A description of the disease and its risk factors and warning signs
HEALTH EXAMINATIONS (continued)

2. A recommendation that students displaying or possibly suffering from risk factors or warning signs associated with type 2 diabetes be screened for the disease

3. A description of the different types of diabetes screening tests available

4. A description of treatments and prevention methods

The information sheet may be provided with the annual parental notifications required pursuant to Education Code 48980. (Education Code 49452.7)

The Superintendent or designee may provide information to parents/guardians regarding public or private sources from which they may receive diabetes screening and education services for free or at reduced costs.
IMMUNIZATIONS

To protect the health of all students and staff and to curtail the spread of infectious diseases, the Board of Trustees shall cooperate with state and local public health agencies to encourage and facilitate immunization of all district students against preventable diseases.

(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)
(cf. 5141.22 - Infectious Diseases)
(cf. 5141.26 - Tuberculosis Testing)
(cf. 6142.8 - Comprehensive Health Education)

Each student enrolling for the first time in a district elementary or secondary school, preschool, or child care and development program or, after July 1, 2016, enrolling in or advancing to grade 7 shall present an immunization record from any authorized private or public health care provider certifying that he/she has received all required immunizations in accordance with law. Students shall be excluded from school or exempted from immunization requirements only as allowed by law.

(cf. 5112.1 - Exemptions from Attendance)
(cf. 5112.2 - Exclusions from Attendance)
(cf. 5141.32 - Health Screening for School Entry)
(cf. 5148 - Child Care and Development)

AR 5141.31(a)

IMMUNIZATIONS

Required Immunizations

The Superintendent or designee shall provide parents/guardians, upon school registration, a written notice summarizing the state's immunization requirements.

The Superintendent or designee shall not unconditionally admit any student to a district elementary or secondary school, preschool, or child care and development program for the first time nor, after July 1, 2016, admit or advance any student to grade 7 unless the student has been fully immunized. The student shall present documentation of full immunization, in accordance with the age/grade and dose required by the California Department of Public Health (CDPH), against the following diseases: (Health and Safety Code 120335; 17 CCR 6020)

1. Measles, mumps, and rubella (MMR)
2. Diphtheria, tetanus, and pertussis (whooping cough) (DTP, DTaP, or Tdap)
3. Poliomyelitis (polio)
4. Hepatitis B
5. Varicella (chickenpox)
6. Haemophilus influenza type b (Hib meningitis)
7. Any other disease designated by the CDPH

(cf. 5141.22 - Infectious Diseases)
(cf. 5148 - Child Care and Development)
(cf. 5148.3 - Preschool/Early Childhood Education)
(cf. 6170.1 - Transitional Kindergarten)

However, full immunization against hepatitis B shall not be a condition by which the Superintendent or designee shall admit or advance any student to grade 7. (Health and Safety Code 120335)

A student who qualifies for an individualized education program (IEP), unless otherwise exempt, shall be fully immunized in accordance with Health and Safety Code 120335 and this regulation. However, the district shall continue to implement the student's IEP and shall not prohibit the student from accessing any special education and related service required by his/her IEP regardless of whether the student is fully immunized. (Health and Safety Code 120335)

(cf. 6159 - Individualized Education Program)
IMMUNIZATIONS (continued)

The student's immunization record shall be provided by the student's health care provider or from the student's previous school immunization record. The record must show at least the month and year for each dose, except that the day, month, and year must be shown for the MMR doses given during the month of the first birthday and for the Tdap dose given during the month of the seventh birthday. (17 CCR 6070)

Exemptions

Exemption from one or more immunization requirements shall be granted under any of the following circumstances:

1. The parent/guardian files with the district a written statement by a licensed physician to the effect that the physical condition of the child is such, or medical circumstances relating to the child are such, that immunization is not considered safe. The statement shall indicate the specific nature and probable duration of the medical condition or circumstances, including, but not limited to, family medical history, for which the physician does not recommend immunization. (Health and Safety Code 120370; 17 CCR 6051)

2. The student's parent/guardian files with the district, before January 1, 2016, a letter or written affidavit stating that an immunization is contrary to his/her personal beliefs, in which case the student shall be exempted from the immunization until he/she enrolls in the next applicable grade span requiring immunization (birth to preschool, grades K-6, grades 7-12). (Health and Safety Code 120335)

(cf. 6141.2 - Recognition of Religious Beliefs and Customs)

When a student transfers to a different school within the district or transfers into the district from another school district in California, his/her personal beliefs exemption filed before January 1, 2016, shall remain in effect until the next applicable grade span. A student transferring from a school outside the district shall present a copy of the personal beliefs exemption upon enrollment. When a student transfers into the district from outside California and presents a personal beliefs exemption issued by another state or country prior to January 1, 2016, the Superintendent or designee may consult with legal counsel regarding the applicable immunization requirements.

3. The student is enrolled in an independent study program pursuant to Education Code 51745-51749.6 and does not receive classroom-based instruction.

(cf. 6158 - Independent Study)
IMMUNIZATIONS (continued)

Conditional Enrollment

The Superintendent or designee may conditionally admit a student with documentation from an authorized health care provider that: (Health and Safety Code 120340; 17 CCR 6000, 6035)

1. The student has not received all the immunizations required for his/her age group, but has commenced receiving doses of all required vaccines and is not due for any other doses at the time of admission.

2. The student has a temporary exemption from immunization for medical reasons pursuant to item #1 in the section "Exemptions" above.

The Superintendent or designee shall notify the student's parents/guardians of the date by which the student must complete all the remaining doses as specified in 17 CCR 6035.

(cf. 5145.6 - Parental Notifications)

In addition, a transfer student may be conditionally admitted for up to 30 school days while his/her immunization records are being transferred from the previous school. If such documentation is not presented within 30 days, the student shall be excluded from school until the required immunizations have been administered. (17 CCR 6070)

The Superintendent or designee shall review the immunization record of each student admitted conditionally every 30 days until that student has received all the required immunizations. If the student does not receive the required immunizations within the specified time limits, he/she shall be excluded from further attendance until the immunizations are received. (Health and Safety Code 120375; 17 CCR 6070)

The Superintendent or designee shall immediately enroll homeless students, foster youth, and students of military families even if their immunization records are missing or unavailable at the time of enrollment. School or district staff shall work with the student's prior school to obtain the student's immunization records or shall ensure that he/she is properly immunized. (Education Code 48853.5, 49701; Health and Safety Code 120341; 42 USC 11432)

(cf. 6173 - Education for Homeless Children)
(cf. 6173.1 - Education for Foster Youth)
(cf. 6173.2 - Education of Children of Military Families)

Exclusions Due to Lack of Immunizations

Any student without the required evidence of immunization may be excluded from school until the immunization is obtained or an exemption is granted in accordance with the section "Exemptions" above.
IMMUNIZATIONS (continued)

(cf. 5112.2 - Exclusions from Attendance)
(cf. 6183 - Home and Hospital Instruction)

Before an already admitted student is excluded from school attendance because of lack of immunization, the Superintendent or designee shall notify the parent/guardian that he/she has 10 school days to supply evidence of proper immunization or an appropriate exemption. This notice shall refer the parent/guardian to the student's usual source of medical care or, if the student has no usual source of medical care, then to the county health department or school immunization program, if any. (Education Code 48216; 17 CCR 6040)

(cf. 5141.6 - School Health Services)

The Superintendent or designee shall exclude from further attendance any already admitted student who fails to obtain the required immunization within 10 school days following the parent/guardian's receipt of the notice specified above. The student shall remain excluded from school until he/she provides written evidence that he/she has received a dose of each required vaccine due at that time. The student shall also be reported to the attendance supervisor or principal. (17 CCR 6055)

Exclusion Due to Exposure to Disease

If the district has good cause to believe that a student has been exposed to a disease listed in the section "Required Immunizations" above and his/her documentation of immunization does not show proof of immunization against that disease, that student may be temporarily excluded from the school until the local health officer informs the district in writing that he/she is satisfied that the student is no longer at risk of developing or transmitting the disease. (Health and Safety Code 120370)

Records

The Superintendent or designee shall record each new entrant's immunizations in the California School Immunization Record and retain it as part of the student's mandatory permanent student record. District staff shall maintain the confidentiality of immunization records and may disclose such information to state and local health departments only in accordance with law. (Health and Safety Code 120375, 120440; 17 CCR 6070)

(cf. 5125 - Student Records)

Audits

HEALTH SCREENING FOR SCHOOL ENTRY

Comprehensive Health Screening for Grades K-1

The parent/guardian of a student in kindergarten or first grade shall submit to the Superintendent or designee a certification form developed by the California Department of Health Care Services (DHCS) and signed by the student's health examiner certifying that the student has completed a comprehensive health screening within 18 months prior to entry into first grade or within 90 days thereafter. (Health and Safety Code 124040, 124085)

((cf. 5111 - Admission)
(cf. 5141.3 - Health Examinations)
(cf. 6173 - Education for Homeless Children)
(cf. 6173.1 - Education for Foster Youth)
(cf. 6173.2 - Education of Children of Military Families)
(cf. 6173.3 - Education for Juvenile Court School Students)

The Superintendent or designee shall notify parents/guardians of all kindergarten students of the requirement to obtain a health screening and of the availability of the Child Health and Disability Prevention (CHDP) program established pursuant to Health and Safety Code 124025-124110 to assist eligible low-income families in obtaining the health screening. (Health and Safety Code 124100)

((cf. 5145.6 - Parental Notifications)

The notice and certification form shall be included with the notification of immunization requirements provided to parents/guardians prior to their child's enrollment in kindergarten and shall encourage completion of the health screening simultaneously with immunizations. The notice shall also be provided to the parent/guardian of any student who is enrolling in first grade without having attended kindergarten in the district.

((cf. 5141.31 - Immunizations)

In lieu of the certification, the parent/guardian may submit a waiver on a form developed by DHCS indicating that he/she does not want or is unable to obtain a health screening. If the waiver indicates that the parent/guardian was unable to obtain the services, the reasons should be included in the waiver. (Health and Safety Code 124085)

The waiver form shall be provided to a parent/guardian upon request.

The completed certification form or the waiver shall be maintained in the student's health file or cumulative record. (5 CCR 432)

((cf. 5125 - Student Records)
HEALTH SCREENING FOR SCHOOL ENTRY (continued)

During the first 90 days of the school year, the Superintendent or designee may contact any parent/guardian of a first-grade student who has not provided either the certification form or the waiver to ensure that the parent/guardian understands the health screening requirement and, if appropriate, his/her possible eligibility for the CHDP program.

The Superintendent or designee shall exclude from school, for not more than five school days, any first-grade student who does not present evidence of a health screening or a waiver on or before the 90th day after entering first grade. The exclusion shall begin on the 91st day after the student's entrance into the first grade, or if school is not in session, then on the next succeeding school day. (Health and Safety Code 124105)

The Superintendent or designee may exempt a student from exclusion when his/her parents/guardians have been contacted at least twice between the first day and the 90th day after the student's enrollment in first grade and the parents/guardians refuse to provide either a certification form or a waiver. (Health and Safety Code 124105)

(cf. 5112.2 - Exclusions from Attendance)

Oral Health Assessment for Grades K-1

No later than May 31 of the school year, the parent/guardian of any kindergarten student or of any first-grade student who was not previously enrolled in a public school shall certify that the student has received an oral health assessment. The oral health assessment shall have been performed by a licensed dentist or other authorized dental health professional no earlier than 12 months prior to the date of the student's initial enrollment. (Education Code 49452.8)

The Superintendent or designee shall notify parents/guardians of students in grades K-1 of the oral health assessment requirement. The notification shall, at a minimum, consist of a letter that includes all of the following: (Education Code 49452.8)

1. An explanation of the administrative requirements of the law
2. Information on the importance of primary teeth
3. Information on the importance of oral health to overall health and to learning
4. A toll-free telephone number to request an application for Medi-Cal or other government-subsidized health insurance programs
5. Contact information for county public health departments
6. A statement of privacy applicable under state and federal laws and regulations
HEALTH SCREENING FOR SCHOOL ENTRY  (continued)

The notification, along with a copy of the certification form developed by the California Department of Education, shall be provided to parents/guardians when they register their child for school.

Following completion of the assessment, the parent/guardian shall submit to the Superintendent or designee a completed certification form which has been signed by the dental health professional.

A parent/guardian may be excused from complying with the oral health assessment requirements if he/she indicates on the certification form that the assessment could not be completed for any of the following reasons: (Education Code 49452.8)

1. Completion of an assessment poses an undue financial burden on the parent/guardian.
2. The parent/guardian lacks access to a licensed dentist or other dental health professional.
3. The parent/guardian does not consent to an assessment.

If the district hosts a free oral health assessment event at which licensed dentists or other licensed dental health professionals perform school site assessments of students enrolled in the school, any student who has not had an oral health assessment shall be given an assessment unless his/her parent/guardian has indicated on the certification form that he/she does not consent to the student receiving an assessment. However, a student shall not receive dental treatment of any kind without his/her parent/guardian's informed consent for the treatment. (Education Code 49452.8)

Students who are not assessed, or for whom the parents/guardians fail to return the certification form, shall not be excluded from school attendance.

By July 1 of each year, the Superintendent or designee shall report data on oral health assessments to the state dental director and/or the county office of education in accordance with Education Code 49452.8.

The report shall also be provided to the Board of Trustees. The identity of any student shall not be included in the report.

HEAD LICE

The Board of Trustees recognizes that head lice infestations among students require treatment but do not pose a risk of transmitting disease. The Superintendent or designee shall encourage early detection and treatment in a manner that minimizes disruption to the educational program and reduces student absences.

The Superintendent or designee may distribute information to parents/guardians of preschool and elementary students regarding routine screening, symptoms, accurate diagnosis, and proper treatment of head lice infestations. (cf. 4231 - Staff Development)

School employees shall report all suspected cases of head lice to the school nurse or designee as soon as possible.

If a student is found with active, adult head lice, he/she shall be allowed to stay in school until the end of the school day. The parent/guardian of any such student shall be given information about the treatment of head lice and encouraged to begin treatment of the student immediately and to check all members of the family. The parent/guardian also shall be informed that the student shall be checked upon return to school the next day and allowed to remain in school if no active head lice are detected.

Upon the student's return to school, the school nurse or designee shall check the student for active head lice. If it is determined that the student remains infected with head lice, the school nurse or designee shall contact the student's parent/guardian to discuss treatment. If a student is found consistently infested with head lice, he/she may be referred to a multidisciplinary team, which may consist of the school nurse, representatives from the local health department and social services, and other appropriate individuals, to determine the best approach for identifying and resolving problems contributing to the student's head lice infestations.

(cf. 1020 - Youth Services)
(cf. 5113 - Absences and Excuses)
(cf. 5113.1 - Chronic Absence and Truancy)

When it is determined that one or more students in a class or school are infested with head lice, the principal or designee may, at his/her discretion, notify parents/guardians of students in that class or school and provide them with information about the detection and treatment of head lice.

The signed statement shall be retained by the Superintendent or designee. (Penal Code 11166.5)

Employees who work with dependent adults shall be notified of legal responsibilities and reporting procedures pursuant to Welfare and Institutions Code 15630-15637.

The Superintendent or designee also shall notify all employees that:

1. A mandated reporter who reports a known or suspected instance of child abuse or neglect shall not be held civilly or criminally liable for making a report and this immunity shall apply even if the mandated reporter acquired the knowledge or reasonable suspicion of child abuse or neglect outside of his/her professional capacity or outside the scope of his/her employment. Any other person making a report shall not incur civil or criminal liability unless it can be proven that he/she knowingly made a false report or made a report with reckless disregard of the truth or falsity of the report. (Penal Code 11172)

2. If a mandated reporter fails to timely report an incident of known or reasonably suspected child abuse or neglect, he/she may be guilty of a crime punishable by a fine and/or imprisonment. (Penal Code 11166)

SUICIDE PREVENTION

The Board of Trustees recognizes that suicide is a leading cause of death among youth and that school personnel who regularly interact with students are often in a position to recognize the warning signs of suicide and to offer appropriate referral and/or assistance. In an effort to reduce suicidal behavior and its impact on students and families, the Superintendent or designee shall develop measures and strategies for suicide prevention, intervention, and postvention.

In developing measures and strategies for use by the district, the Superintendent or designee may consult with school health professionals, school counselors, school psychologists, school social workers, administrators, other staff, parents/guardians, students, suicide prevention experts, local health agencies, mental health professionals, and community organizations.

(cf. 1220 - Citizen Advisory Committees)
(cf. 1400 - Relations Between Other Governmental Agencies and the Schools)

Such measures and strategies shall include, but are not limited to:

1. Staff development on suicide awareness and prevention for teachers, school counselors, and other district employees who interact with students

(cf. 4231 - Staff Development)
(cf. 4331 - Staff Development)

2. Instruction to students in problem-solving and coping skills to promote students' mental, emotional, and social health and well-being, as well as instruction in recognizing and appropriately responding to warning signs of suicidal intent in others

(cf. 6142.8 - Comprehensive Health Education)

3. Methods for promoting a positive school climate that enhances students' feelings of connectedness with the school and that is characterized by caring staff and harmonious interrelationships among students

(cf. 5131 - Conduct)
(cf. 5131.2 - Bullying)
(cf. 5137 - Positive School Climate)
(cf. 5145.3 - Nondiscrimination/Harassment)
(cf. 5145.7 - Sexual Harassment)

Although any personal information that a student discloses to a school counselor shall generally not be revealed, released, referenced, or discussed with third parties, the counselor may report to the principal or student's parents/guardians when there is reasonable cause to believe that disclosure is necessary to avert a clear and present danger to the health, safety, or welfare of the student or others within the school community. In addition, the counselor may disclose information of a personal nature to psychotherapists, other health care providers, or the school nurse for the sole purpose of referring the student for treatment. (Education Code 49602)

If the parent/guardian does not access treatment for the student, the Superintendent or designee may meet with the parent/guardian to identify barriers to treatment and assist the family in providing follow-up care for the student. If follow-up care is still not provided, the Superintendent or designee shall consider whether it is necessary, pursuant to laws for mandated reporters of child neglect, to refer the matter to the local child protective services agency.

(cf. 5141.4 - Child Abuse Prevention and Reporting)

For any student returning to school after a mental health crisis, the principal or designee and/or school counselor may meet with the parents/guardians and, if appropriate, with the student to discuss re-entry and appropriate next steps to ensure the student's readiness for return to school and determine the need for ongoing support.

Postvention

In the event that a student dies by suicide, the Superintendent or designee shall communicate with the student's parents/guardians to offer condolences, assistance, and resources. The Board desires to support the prevention of excessive UV radiation exposure by students and to assist students in developing sun-safe habits to use throughout their lives.

The Superintendent or designee shall establish a developmentally appropriate prevention/intervention program for grades K-12 to prevent student overexposure to UV radiation. He/she may coordinate sun safety and UV radiation education and policy efforts with the California Department of Public Health, the local health department, and other local agencies and/or community organizations. He/she shall involve students, parents/guardians, and the community in support of such school-based programs.

(cf. 1020 - Youth Services)
(cf. 5141.6 - Student Health and Social Services)

DISCIPLINE

Site-Level Rules

Site-level rules shall be consistent with state law and Board policies and administrative regulations. In developing site-level disciplinary rules, the principal or designee shall solicit the participation, views, and advice of one representative selected by each of the following groups:  (Education Code 35291.5)

1. Parents/guardians
2. Teachers
3. School administrators
4. School security personnel, if any
   
   (cf. 3515.3 - District Police/Security Department)

5. For junior high and high schools, students enrolled in the school

Annually, site-level discipline rules shall be reviewed and, if necessary, updated to align with any changes in state law, district discipline policies and regulations, and/or goals for school safety and climate as specified in the district's local control and accountability plan. A copy of the rules shall be filed with the Superintendent or designee for inclusion in the comprehensive safety plan.

   (cf. 0450 - Comprehensive Safety Plan)
   (cf. 0460 - Local Control and Accountability Plan)

School rules shall be communicated to students clearly and in an age-appropriate manner.

It shall be the duty of each employee of the school to enforce the school rules on student discipline.  (Education Code 35291.5)

Disciplinary Strategies

To the extent possible, staff shall use disciplinary strategies that keep students in school and participating in the instructional program. Except when students' presence causes a danger to themselves or others or they commit a single act of a grave nature or an offense for which suspension or expulsion is required by law, suspension or expulsion shall be used only when other means of correction have failed to bring about proper conduct. Disciplinary strategies may include, but are not limited to:

1. Discussion or conference between school staff and the student and parents/guardians
2. Referral of the student to the school counselor or other school support service personnel for case management and counseling

3. Convening of a study team, guidance team, resource panel, or other intervention-related team to assess the behavior and develop and implement an individual plan to address the behavior in partnership with the student and parents/guardians

4. When applicable, referral for a comprehensive psychosocial or psychoeducational assessment, including for purposes of creating an individualized education program or a Section 504 plan

5. Enrollment in a program for teaching prosocial behavior or anger management

6. Participation in a restorative justice program

7. A positive behavior support approach with tiered interventions that occur during the school day on campus

8. Participation in a social and emotional learning program that teaches students the ability to understand and manage emotions, develop caring and concern for others, make responsible decisions, establish positive relationships, and handle challenging situations capably

9. Participation in a program that is sensitive to the traumas experienced by students, focuses on students' behavioral health needs, and addresses those needs in a proactive manner

10. After-school programs that address specific behavioral issues or expose students to positive activities and behaviors, including, but not limited to, those operated in collaboration with local parent and community groups

(cf. 6158 - Independent Study)
(cf. 6181 - Alternative Schools/Programs of Choice)
(cf. 6184 - Continuation Education)
(cf. 6185 - Community Day School)

16. Suspension and expulsion in accordance with law, Board policy, and administrative regulation

(cf. 5144.1 - Suspension and Expulsion/Due Process)
(cf. 5144.2 - Suspension and Expulsion/Due Process (Students with Disabilities))

When, by law or district policy, other means of correction are required to be implemented before a student could be suspended or expelled, any other means of correction implemented shall be documented and retained in the student's records. (Education Code 48900.5)

(cf. 5125 - Student Records)

**Recess Restriction**

Teachers may restrict a student's recess time only when they believe that this action is the most effective way to bring about improved behavior. When recess restriction involves the withholding of physical activity from a student, teachers shall try other disciplinary measures before imposing the restriction. Recess restriction shall be subject to the following conditions:

1. The student shall be given adequate time to use the restroom and get a drink or eat lunch, as appropriate.

2. The student shall remain under a certificated employee's supervision during the period of restriction.
DISCIPLINE (continued)

3. The student's teacher shall inform the principal of any recess restrictions imposed.

(cf. 5030 - Student Wellness)
(cf. 6142.7 - Physical Education and Activity)

Detention After School

Students may be detained for disciplinary reasons for up to one hour after the close of the maximum school day, or until the departure of the school bus to which they have been assigned if applicable. (5 CCR 307, 353)

The student shall not be detained unless the principal or designee notifies the parent/guardian.

Students shall remain under the supervision of a certificated employee during the period of detention.

Students may be offered the choice of serving their detention on Saturday rather than after school.

(cf. 6176 - Weekend/Saturday Classes)

Community Service

As part of or instead of disciplinary action, the Board, Superintendent, principal, or principal's designee may require a student to perform community service during nonschool hours on school grounds or, with written permission of the student's parent/guardian, off school grounds. Such service may include, but is not limited to, community or school outdoor beautification, community or campus betterment, and teacher, peer, or youth assistance programs. (Education Code 48900.6)

This community service option is not available for a student who has been suspended, pending expulsion, pursuant to Education Code 48915. However, if the recommended expulsion is not implemented or the expulsion itself is suspended, then the student may be required to perform community service for the resulting suspension. (Education Code 48900.6)

Notice to Parents/Guardians and Students

At the beginning of the school year, the Superintendent or designee shall notify parents/guardians, in writing, about the availability of district rules related to discipline. (Education Code 35291, 48980)

(cf. 5145.6 - Parental Notifications)
DISCIPLINE (continued)

The Superintendent or designee shall also provide written notice of disciplinary rules to transfer students at the time of their enrollment in the district.
