

CONDUCTING RESEARCH

Anyone wishing to conduct research in the Palmdale School District (PSD) must obtain approval from the Research Review Committee by completing and submitting the application below. Only proposals for research that will result in a clear and direct benefit to the district will be considered for approval.

As educators, we support high-quality research that would advance the field of education. At the same time, we must remain cognizant of our primary responsibility to the students, parents and staff whom we serve within PSD.

This application and any relevant study materials will be reviewed by the PSD Research Review Committee, which will make a recommendation to approve or deny each request based on the priorities listed in the Considerations for Approval section below. While Research Review Committee approval is required prior to beginning any research in PSD, each administrator has the authority to accept or respectfully decline participation based on the unique interests of their department or site.
