An Individualized, Flexible Approach to Learning

Often, a one-on-one approach is what it takes to realize a child's innermost possibilities. Tuition-free online public schooling offers an education that adapts to fit every child. Presented by the Palmdale School District, Innovations Academy offers a high quality virtual education for Kindergarten through 8th grade students in Palmdale, California.

A Quality Virtual Education for Your Child

Innovations Academy has partnered with Connections Education, a division of the global education leader, Pearson, which has delivered successful virtual school instruction to hundreds of thousands of students in the last decade. Connections Education is accredited by AdvancED, an organization representing 27,000 public and private schools and districts across the United States and in 65 countries.

CONNECTIONS LEARNING® by Pearson

An Online School for Grades K-8

Why Choose Innovations Academy?

Families around the country choose online education for many reasons—the most common being the desire for a flexible, personalized education for their child. For many students, Innovations Academy provides an excellent alternative to the traditional school environment.

- Kindergarten-8th Grade
- Chromebooks & Portable Wifi Available
- One to one instruction from online courses and the learning coach (parent)
- Support from highly qualified teachers
- Personalized Education
- Opportunities to learn in a collaborative group setting
- Opportunities for additional tutoring

Online Learning: A Path to Success

Imagine an outstanding, engaging program customized to each student's unique talents, challenges, and schedule. Our personalized approach empowers students to learn in a way that is suited to their strengths and needs.

What We Offer

- A high-quality public school education featuring exceptional online curriculum developed by Connections Education
- Instruction and support from passionate experienced, certified teachers

Success Starts with Proven Curriculum

The curriculum used in our school has been specifically designed for use in online instruction and time-tested for over a decade. Our curriculum lays the groundwork for future academic success by:

- Building a solid foundation in reading, writing, and mathematics
- Developing lifelong learning and analytical skills
- Encouraging exploration, critical thinking and problem solving
- Meeting or exceeding state and national standards

Parents/Guardians Play A Vital Role

Involved parents or guardians are critical to student success. Parents/guardians work closely with students and their teachers to help develop and deliver an individualized approach to instruction and learning. The parent/guardian monitors the student's daily activities, encourages progress, and communicates regularly with the teacher to ensure the student stays on track.

Technology That Boosts Learning

Connexus®, a proprietary virtual school technology, allows us to bring the classroom to any student via an Internet connection. With interactive web tools, online lesson plans, and live instruction, students enjoy a virtual classroom experience led by certified teachers. Students, teachers, and family members communicate through our own secure email system, on dedicated message boards, or by telephone. Our online gradebook allows students and parents to track progress at any time. Families can also monitor all students within the household easily from the Educational Management System home page.

How It Works

- Access courses anytime, anywhere.
- For some courses, students attend periodic synchronous online classes with help and instruction by live online teachers.
- Course solutions address multiple learning styles: auditory, visual, and kinesthetic.
- Students have access to both a certified teacher in our lab as well as virtual sessions with a Live Tutor.
- Students will complete an online lesson plan at home, and will attend class one day per week for 3 hours at Innovations Academy.
