

WHAT DOES THE EBB PROGRAM DISCOUNT COVER?

The EBB Program provides a monthly discount of not more than \$50 per month on broadband service and associated equipment (for example, a modem) for eligible. If the participating consumer chooses an eligible plan that costs \$50/month or less, the consumer will receive that service for free, at least until the EBB Program ends. Each participating household may also receive a one-time discount of up to \$100 for one connected device—a laptop, desktop, or tablet computer—where available from a participating broadband provider, as long as the household contributes more than \$10 and less than \$50 towards the cost of the device. Each participating household is limited to a single device discount.

School Tip: Not all participating providers are offering a connected device, so this might be something families consider when selecting which participating provider they will use.
